

The trail leaves Amelia Street and heads west along a laneway towards the Alton Mill. Shaw's Creek flows along the south side of the laneway all the way to the Mill. The trail turns sharply right immediately after the old drive shed which is on the north side of the laneway and heads up a small hill into a forest on the east side of the Mill's parking area. The trail continues north for a short distance through this forest and as it leaves the Alton Mill property onto the Millcroft Inn property the trail starts a long climb uphill to the Alton Pinnacle.
