

**Sydenham  
Map #32**

Shortly after passing the northern junction of the Keeling Side Trail, the main Trail now turns right (north) over a stile. It continues through the edge of a hardwood forest and a pine plantation before finally entering the forest. The Trail follows the base of the talus slope to a small pond where it turns north and follows a fence line out to Superior Street. Heading left (west) on Superior Street for 800 metres the Trail then meets up with 9th Ave E and turns left (south).

**Warning! Do not cross 9th Ave E at the junction with Superior Street.** It is a very busy road with poor sight lines at this location because of the hill. Continue to follow the blazes south on 9<sup>th</sup> Ave E for 300 metres up and over the hill to a safe location as indicated by the blazes. **Please use extreme caution while crossing this busy road!**

New Route = 2.2 km  
New Route on Road = 1.2 km

Old Route = 1.3 km  
Old Route on Road = 0.5 km
