Map #9 - Waterdown Woods Side Trail (closure)

The Waterdown Woods Side Trail has been decommissioned, the blazes have been removed and the trail will no longer be considered part of the Bruce Trail system. The trail itself has been left open and has not been barricaded or disguised in any way. The closure stems from the fact that this trail has historically been difficult to maintain due to the numerous low wet areas along with the increased bike activity making the Trail hazardous to hike.

Discontinued Side Trail = 1 km
