

Iroquoia

Map #9 – Hwy 6 Tunnel

The Trail descends via a series of wooden steps to reach Old Guelph Road. Crossing this dead-end road, the Trail descends concrete steps and turns left to go through a tunnel under Highway 6. Leaving the tunnel, the Trail turns left, climbs more concrete steps, then quickly jogs right, left and right again to pass the ruins of an old homestead. Passing through woodlands, the Trail emerges at the lip of a restored quarry site, turns right and then left to cross a bridge at the Upper Quarry Cascade.

New Route = 920 m

Deleted Route = 1.8 km
