President's Message—Marilyn Ross

We are now enjoying some great hiking weather and with restrictions lifted we can enjoy our group hikes again. We are able to host some in-person activities now such as our June Volunteer Picnic, the Prediction Hike in September, Bruce Trail Day in October as well as our Thanksgiving E2E and Winter Pot Luck. More details can be found in this newsletter and on the club website.

Our April 3rd AGM was held on line again, but in “meeting format” this year. Following the meeting there was an exciting presentation by Gary Hall, Richard Smythe and Janice McClelland. It was a very impressive presentation by all three. Listen to the recording online if you were not able to attend.

Voting for our 2022-23 Board of Directors was completed during the AGM and the successful members are Heidi Bischof, Maria Burton, Louise Carberry, Sally Cohen, Lynn Dobson, Sandy Green, Gary Hall, Danielle Koren, Peter Leeney, Rob Martin, Janice McClelland, Diane McKenzie, Heather Murch, Marilyn Ross, Linda Vezina and Andree Zeritsch. Retiring from the Board this year were Sheila Kingsborough and David Lamb. I would like to thank them both for volunteering and look forward to seeing them on the Trail.

New this year will be the Trail Ambassadors hired by the BTC for all 9 clubs for the summer. Last year the BTC did a trial of this program with 2 clubs. This was very successful so it is being expanded this year to all clubs. The Trail Ambassadors will engage with hikers along the Trail and educate them regarding Trail etiquette and safety. They will also gather information on Trail issues and endangered species. Chat to them if you meet them along the Trail.

We are also looking forward to new fundraising events in June and September this year. Details are in this newsletter and on the website.

As I write this I am hoping we will have a closer to normal year with more in person events.

PLEASE HELP REDUCE COSTS!

**IN 2020 THE CLUB SPENT \$4604 ON
PRINTING AND POSTAGE TO MAIL THE CALEDON COMMENT TO OUR MEMBERS.
THIS EXPENSE DROPPED TO \$3313 IN 2021, A SAVINGS OF \$1291
WHICH WENT DIRECTLY TO THE BTC TO FURTHER THE MISSION OF
*PRESERVING A RIBBON OF WILDERNESS, FOR EVERYONE, FOREVER.***

**THANK YOU TO EVERYONE WHO HAS AGREED TO RECEIVE
THE ELECTRONIC VERSION RATHER THAN THE PRINTED VERSION.**

**TO PARTICIPATE IN THIS COST REDUCTION INITIATIVE AND TO RECEIVE YOUR
NEWSLETTER BY EMAIL, CONTACT THE EDITOR AT**

BTC Citizen Science, The Citizen Science Badge And the Biodiversity Hero Badge

By Richard Smythe, CHBTC Biodiversity Committee Member

The CHBTC Biodiversity Committee was busy making plans over the winter. We are very pleased to announce that there will be two new badges for the CHBTC. These badges will be sponsored and supported by the Biodiversity Committee in recognition of the work of volunteers who are learning about and defending biodiversity in our ribbon of wilderness.

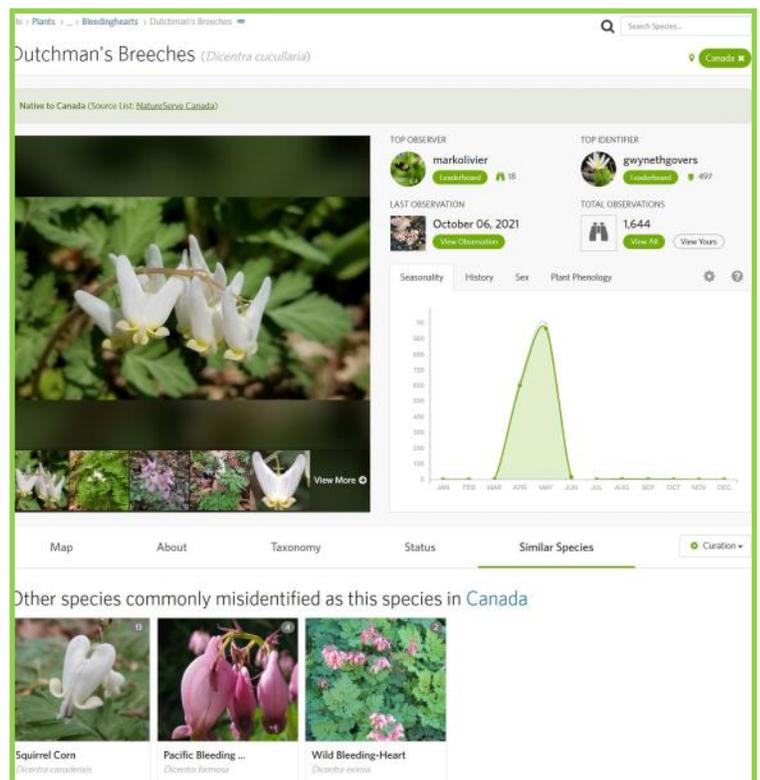

Two New Badges
Coming!

Check our
[website](#) for
availability

We know that our world is facing serious challenges from climate change, ecosystem degradation, species loss, and a failing human relationship with nature. We are informed by science that to stem the tide it is essential for us to restore our connectedness to nature, to understand the value of the wilderness, to respect and protect it. The first steps are for us to learn how to identify species, to learn how to count them, and then to learn how to conserve them. It is heartening to know that these are things we can do as individuals. We can learn as much as we can about our wilderness, we can provide important data to conservationists, and we can help restore natural habitat. Restoring habitat is one of the best ways to help plants, animals and insect populations rebound.

Collecting Data
Photos by Gary Hall

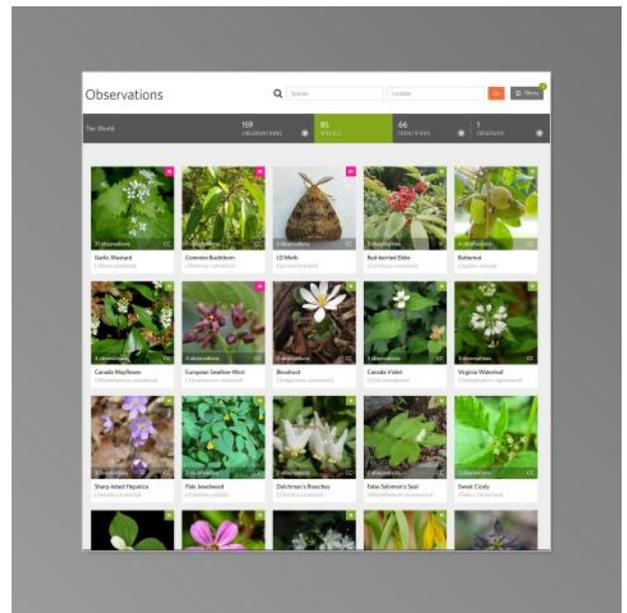

iNaturalist Observation of Dutchman's Breeches
Photo by Richard Smythe

An important way to take these first steps is to support the Bruce Trail Conservancy's Citizen Science program. The program is an essential tool to help the BTC Conservation and Trail staff better understand and protect biodiversity along the Bruce Trail. The BTC iNaturalist Project 2020 Report revealed that just 60 volunteer Citizen Scientists collected 10,326 observations of 1,387 species up and down the Trail that year. This is invaluable information for the ecologists in support of their conservation programs. And it is something that almost all of us can help with.

Our *Citizen Scientist Badge* will reward hikers that make and record observations of species as they hike along the trail and submit them to the iNaturalist Bruce Trail Project. This will allow BTC staff to catalog, map and track native, invasive, and species at risk along the Bruce Trail. Our observations will provide essential data to plan and direct resources to conserving and restoring habitat.

The other benefit from participating in the Citizen Science program is the opportunity to learn to identify and understand the value of native species, the role they play in our ecosystems, and how important they are to humanity. This can help restore one's connectedness to nature.

The *Biodiversity Badge* will be awarded to volunteers that protect biodiversity by helping us identify and manage invasive species along the trail. We will be providing opportunities for on site training, work parties and instruction for those of you who wish to give back to the wilderness you enjoy, and actively participate in our battle against the big three invasives; Garlic Mustard, Dog-Strangling Vine (European Swallow-Wort), and Common (European) Buck-thorn.

This spring we are starting *a new series of nature walks* that will be focused on enjoying and learning about the natural world around us. The photo to the left was taken on a recent nature walk on Hemlock Ridge. We will include improving skills using the wildlife identification apps iNaturalist, Seek and Merlin, and also the use of photography as ways to connect with nature. We will also be holding onsite invasive species workshops to provide training and to get the job started.

Keep an eye out for more news about the new badges, nature walks and invasive species workshops in the weeks and months to come. The nature walks will also be posted on the BTC Online Hike Calendar.

You can follow the Caledon Hills Biodiversity Group on Facebook by searching CHBTC—Biodiversity Team.

Reach new heights.

We combine real hiking, cultural experiences, and comfortable accommodations with transportation logistics taken care of.

For more information, contact your local travel professional, call 1-888-716-5523 or visit deluxehiking.com.

Whistler Alpine Meadow courtesy of Destination BC

Caledon Hills Bruce Trail Club

14th Annual

Volunteer Appreciation Picnic

St. Francis Centre

208501 Highway 9

(Approximately 1 km east of Airport Road)

Sunday June 5, 2022

10:00 am – Enjoy a local hike

12:00 noon – Social Time

12:30 pm – Lunch – Please Bring Your Own Bagged Lunch

1:30 pm - Presentation of Club Awards

The Isabel East Award

The Barry Westhouse Award

The Laurence Christie Biodiversity Award

The Junior Achievement Award

And the new CHBTC Ribbon of Wilderness Award

Friends and family are welcome. Remember to bring your own lunch, cutlery, dishes and lawn chairs.

Have you every considered volunteering?

We are currently seeking an outgoing individual to take on the role of Social/Events Co-ordinator and also someone to assist with Publicity. A knowledge of social media is not required for the Publicity position, but you would work in tandem with the Social Media team. Descriptions of both positions are currently on our [website](#). If either of these roles, or any volunteering with the club is of interest to you, please contact Lynn Dobson, Volunteer Co-ordinator, at Chbtcmembershipdirector@gmail.com

Caledon Hills “Fall Colours” End-to-End Thanksgiving Weekend - October 8, 9,10

The Caledon Hills Bruce Trail Club is looking forward to hosting our “Fall Colours” End-to-End hiking events over the upcoming Thanksgiving weekend.

Plan to enjoy the spectacular fall colours, as you hike the 71.3 km of main Trail through our famous Caledon Hills. You can complete the distance over all three days of the weekend or the same distance over Saturday and Sunday only. The cost of the three-day event is \$43.00 and the two-day event is \$32.00. The registration fee covers the BTC processing fees, daily bus transportation, refreshments, and an end-to-end badge on completion.

Registration will begin June 30, on the BTC Hike Schedule. Participation is limited to one bus of hikers for each of the events.

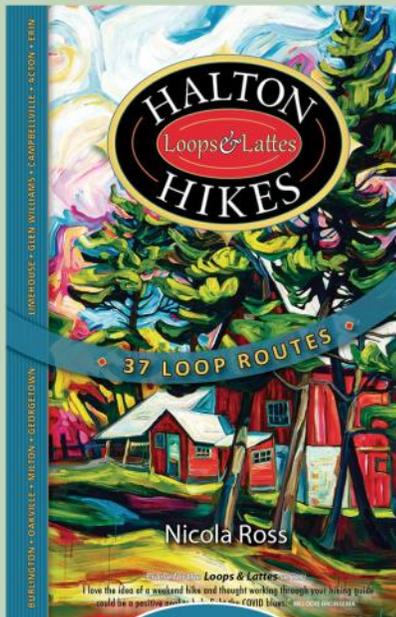

For further details and event updates, visit the CHBTC website, caledonbruce trail.ca and follow the Club on Facebook and Instagram.

Contact Sandy Green, E2E Coordinator at info@caledonbruce trail.org with any additional questions or concerns.

Drive-in Movie Fundraiser in Support of the Bruce Trail Conservancy

What can be better than watching a movie under the stars knowing you are helping to preserve our beautiful Bruce Trail? The Caledon Hills Bruce Trail Club (in collaboration with the Toronto and Iroquoia Clubs) is hosting a Drive-in movie night on

Thursday, June 16th at the 5 Drive-In, Oakville

Tickets can be purchased in advance and [are available here.](#)

The feature movie that will be shown is [A Walk in the Woods](#) starring Robert Redford and Nick Nolte. It's based on Bill Bryson's best seller about his adventures on the Appalachian Trail. "If you think our beloved Bruce Trail is long, come check out the Appalachian Trail. It stretches more than 3,500 km from Georgia to Maine!" says Caledon Hills Club Fundraising Director Linda Vezina. Duration: 1 hour 45 minutes.

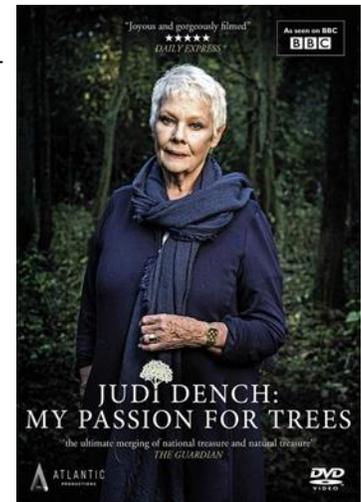

The second film features Judi Dench (of James Bond fame) talking about [My Passion for Trees](#). This is a moving documentary following Judi Dench as she explores the lives of trees, discovering how they feel, how they communicate and how they fight off invading armies and extreme weather. Duration: 1 hour

Gates open at 8 pm, so come early for a good spot or if you want to meet up and mingle with old friends. Make sure you arrive by 9 pm as the movies start at dusk, about 9:30 pm.

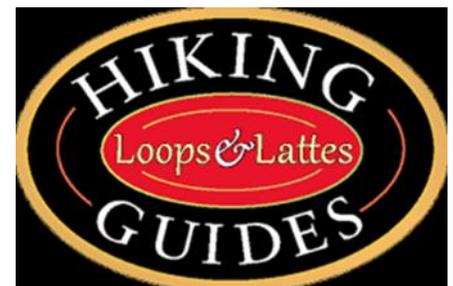

The cost is **\$75 per car**, which includes a \$50 donation and a maximum allowable tax receipt will be issued. The event is being held at the 5 Drive-In, 2332 Ninth Line, Oakville. [Click here for directions.](#)

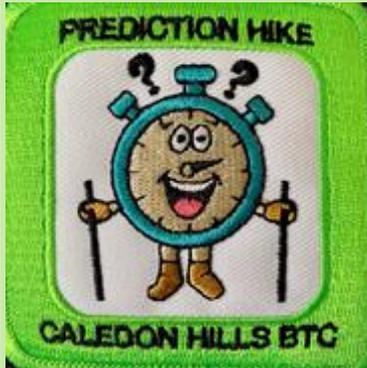

The event will include guest speaker Michael McDonald, CEO of the Bruce Trail Conservancy, who will provide stunning visuals of precious lands preserved and species at risk along the trail. A Disc Jockey will be playing your favourite tunes while you wait for the films to roll, and there's a snack bar for all your munchie needs. Please note that no outside food is allowed. There are washrooms available, and the event will proceed come rain or shine.

For more information contact BTCflicks@gmail.com

We also thank our event sponsors who continue to support us year after year. We have reduced our costs through their support, so a big shout out to Wild Birds Unlimited Nature Shop and Loops & Lattes Hiking Guides.

Caledon Hills Prediction Hike Fundraiser

This year's FUN-filled Prediction Hike will take place on Saturday, September 24 at the Hockley Valley Provincial Nature Reserve. Hikers will choose to complete one of two predetermined hikes, a distance of 7 km or 20 km, and upon registration for the event, provide organizers with their personal "to-the-second" prediction of how long it will take to complete the distance on event day. Of course, there's a catch.

NO time, pace, or distance technology can be used during the actual event. The hiker in each hike distance category with the closest prediction to his/her actual time will be awarded a fabulous prize. Everyone will receive a spectacular souvenir badge. Prediction Pete, our first collectible badge character will have a new friend, Prediction Parnika.

Interested participants can pre-register on the BTC Hike Schedule, starting June 30th. Participation is limited to 60 hikers. The registration fee is \$26.00.

Further registration details will be posted on our Facebook and Instagram accounts and our website caledonbrucetrail.ca.

Contact event coordinators, Sally and Sandy at info@caledonbrucetrail.org with any additional questions.

Comfortable **Hiking Holidays**
Hike an adventure. Rest in comfort.

SLOVENIJA

July 15 to 25, 2022

Slovenija is where the Alps meet the Mediterranean and is a country of amazingly unspoiled beauty.

Our program includes hikes behind the thundering Slap Pericnik waterfall, through Vintgar Gorge gushing with white water, on the slopes of & Mt. Triglav, and around the glacier-fed Lake Bohinj. Home base for the entire holiday will be the fairy-tale setting of Bled. Dates specifically chosen to catch the Bled Days Festival, when organizers launch 15,000 candles in egg shells onto Lake Bled, illuminating the whole lake!

KENYA WALKING SAFARI

September 11 to 23, 2022

Don't just *drive* through Kenya – hike it too!

Imagine encountering herds of zebras, giraffes and gazelles right on your path! Travel to 3 different parts of the country, take in incredible sunsets over the savannah, visit Masai herdsman in their homes and, of course, see lions, elephants & leopards on our game drives. Accommodations include luxury tented camps and one night at The Ark!

FOODLAND

Fresh food. Friendly neighbours.

Daily fresh produce
Excellent selection of meats
Fresh baked buns and breads
Store-made deli sandwiches and hot table
Only a 4-minute walk south of the Caledon Trailway on Airport Road in Caledon East

2022 CHBTC Annual General Meeting - by Jean Kerins

Our Club's 58th Annual General Meeting was held virtually on Sunday, April 3rd, 2022. With assistance from Bruce Trail Conservancy staff, the club was able to host a very interesting and informative meeting which saw the election of our new Board of Directors for the 2022-2023 year. A full list of the new Directors and Support Volunteers appears on Page 2 of this newsletter. As I write this, there are two vacancies on the board that we are hoping to fill soon. See the notice on Page 7 for more information about these positions. Following the elections, several directors gave presentations about their various portfolios. Contact the club President if you would like to receive these reports. Of particular note, it was reported that the club has donated over \$237,500 to the BTC over the last two decades. That is an incredible achievement. In addition, the Tuesday Hikers have donated over \$17,500 one looney at a time!

Following the business portion of the meeting, the screen was turned over to Richard Smythe who gave a beautiful slide show sharing his personal story of exploration and discovery along our trail. Through his incredible photography and his use of nature apps, Richard's enthusiasm for protecting and preserving our trail was infectious. To quote Richard, "I began to realize that once you've started to become connected by all this biodiversity, you're never alone on the trail".

Gary Hall followed with a presentation on how the Bruce Trail offers us many opportunities to enjoy its Ribbon of Wilderness. Gary explained how he explores this Ribbon of Wilderness at a slower pace and in greater depth than with a traditional hike. By using our eyes (sometimes assisted by a camera or binoculars) and our ears (sound is so important) we can enhance our love and appreciation of our natural surroundings. Through hiking, Gary has discovered the fascinating world of birding, and using the Merlin cell phone app he has identified the sounds of many birds that can be heard, often unseen, along the trail.

Lastly, Janice McClelland spoke about the wonders of forest bathing, where participants on the hike slow down and remain as quiet as possible to fully capture the benefits that a walk in the woods can generate. Engage your senses – listen, look, smell, taste the freshness of the air, touch the trunk of a tree...keep your senses open to notice things and to smell the forest air. Janice will be offering three more forest bathing walks this year that can be booked through the BTC's online hiking calendar. The dates are June 23th, July 1st, and October 25th.

Our Side Trails - by Jean Kerins

The main Bruce Trail, designated by white blazes, is linear running from Queenston Heights in the south to Tobermory in the north. Side trails branch out from the main Bruce Trail along its entire 904 km length. These side trails, designated with blue blazes, are sometimes created as access points, and very often are created to allow hikers to leave the main Trail to explore special features of interest. As this is written, the Bruce Trail Conservancy has 469 kilometers of side trails.

In 1968 the Caledon Hills Club took the side trails concept in a new direction, creating the first circular loop trail along the entire Bruce Trail. As then Club President Tom East wrote in the November 1968 Caledon Comment: *“Members who are not walking on this new circular route are missing a good thing. The Trail has almost everything a hiker could desire – climbing – wooded paths and roads – scenery – and you come back to where your started without backtracking. On Sunday 20th October, 160 members of the Toronto Bruce Trail Club arrived at Credit Forks in cars and two special buses to try out our new circular route. To ensure that all went smoothly with such a large crowd, the Caledon Hills Club provided five guides and a car for emergencies along the route....”*. The event was a great success and now there are many, many circular routes along the Bruce Trail for hikers to enjoy.

Very often, naming a side trail provides an opportunity to highlight a special local feature or to honour an outstanding club volunteer. On Page 13 of this issue, you can read about Tom East who was honoured with a side trail bearing his name. The Tom East Side Trail is located in the Hockley Valley Provincial Nature Reserve and is one of a variety of side trails in the Reserve. The Tom East Side Trail also forms part of the Jeju Olle Friendship Trail (twinned with Route 2 of the Jeju Olle Trail, South Korea).

Today, the Caledon Hills Club has 29 side trails. We have developed a badge, pictured above, that you can earn by hiking various clusters of side trails in the Caledon Hills section. Full details on how to acquire this great badge are available on our [website](#). If you decide to earn this badge, we would love to hear about your side trail experiences!

Stay Tuned...The Caledon Hills Bruce Trail Club has a new project involving our Side Trails and we'll be letting you know further information in the next Caledon Comment as details are confirmed.—Editor

The Hockley Valley Provincial Nature Reserve Sign serves as a backdrop for trail routes within the Reserve, information on how to access maps or read blazes, and the stylistic Jeju Olle Ganz, all together with the sign for the Tom East Side Trail.
Photo by Fred Nix.

Tom East - By Janice McClelland

Tom East, an engineer and physicist, immigrated to Canada from England in 1951.

Hearing about the proposed Bruce Trail on a CBC radio broadcast in the early 1960's, Tom connected with one of the Bruce Trail founders, Philip Gosling.

Tom decided to see firsthand the already-in-place Niagara section of the Bruce Trail. Leaving his vehicle at Queenston Heights, he returned after three days of hiking to discover that his car had been impounded, mistaken as abandoned! Undaunted, Tom became an early volunteer trail builder, helping to lay out the Bruce Trail in the Iroquoia and Caledon Hills sections.

Philip Gosling recalls a trail-building day in the Caledon Hills section – “...the day Tom East and I, using a compass bearing, were thrilled to find the opening in the escarpment (an unopened road allowance) leading down to the Credit Falls road below.” (This rocky, steep opening became known as the Devil’s Pulpit!)

In 1965, the very first Bruce Trail Guidebook was produced under Tom’s direction - two years before the Bruce Trail was officially completed and opened in 1967.

Tom was President of the Caledon Hills Bruce Trail Club from 1966 – 69 and then became President of the overall Bruce Trail Association (now Conservancy) until 1973.

Always far-sighted and a practical thinker, in his first report as Bruce Trail Association President in 1969, Tom stated that his aim was “to preserve the Trail”. That philosophy has remained consistent – the BTC mission statement, updated in 2017, is *Preserving a ribbon of wilderness, for everyone, forever.*

Tom also developed the concept of the “Optimum Route” for the Bruce Trail. The definition of the Optimum Route became “along or close to the top of the Niagara Escarpment or on top of the steepest part of the slope”. This concept continues to guide trail placement and land securement by the Bruce Trail Conservancy.

Tom had a fierce loyalty to the Caledon Hills Bruce Trail Club - always volunteering in the Club’s annual Fall Colours End to End of the Caledon section and attending Club Annual General Meetings – until his death at age 90 in July 2012.

You can hike the 2.5 km Tom East Side Trail, crossing rolling woodlands in the Hockley Valley Provincial Nature Reserve. Together with the main Bruce Trail, it’s possible to make a 4.8 km loop, or add on a hike on the Isabel East Side Trail (Isabel was Tom’s spouse and also a long time volunteer) for an additional 4 km loop. (BTC Ref Guide, Map 18)

Tom was a pioneer of the Caledon Hills Bruce Trail Club and the Bruce Trail Conservancy. We are grateful for his legacy – establishing and helping to preserve the trail that we enjoy so much today.

Dubbed the “Cairn to Cairn Crew,” this group is hiking the entire Bruce Trail to support and raise awareness of the Bruce Trail Conservancy’s mission of “preserving a ribbon of wilderness, for everyone, forever”. They started their end-to-end back in 2020, raising \$14,000. After a two year pause, they are back at it, planning to reach the northern cairn on May 11. They recently completed our Caledon Hills. website.*

RESPECT OF THE LAND

1. Hike only along the blazed routes. Do not take short cuts. Use the stiles and do not climb fences.
2. Obey all signage.
3. Always respect the privacy of people living along the Trail. Many landowners graciously allow the Bruce Trail on their property for pedestrian use. Trespassing or misuse of the Trail could lead to a request to remove the Trail from private property.
4. Leave the Trail cleaner than you found it. Carry out the litter.
5. Leave flowers, plants and trees for others to enjoy.
6. Where dogs are permitted, keep them on a leash and under control at all times.
7. Do not disturb wildlife and farm animals.
8. Leave only your thanks and take nothing but photographs.
9. Everyone's experience in nature is unique and personal. Help encourage an inclusive community of outdoor explorers.

The Niagara Escarpment/Gchi-Bimadina/Kastenhraktátye is the traditional territory of Indigenous peoples. In both spirit and partnership, we recognize and thank the Anishinaabek, HuronWendat, Tionontati, Attawandaron, Haudenosaunee, Métis, and all who provided stewardship of these lands over millennia. Together may we care for this land and each other, drawing upon the strength of our mutual history through peace and friendship, to create a lasting legacy of conservation for generations to come.

The Bruce Trail Conservancy Mission:

Preserving a ribbon of wilderness, for everyone, forever.
